Species:

Sample Information:

Note: For expression profiling, miRNA and miRGE assays, please provide at least 20 µl of 75 - 350 ng/µl of RNA as measured by a spectrophotometer (e.g., NanoDrop) or fluorometer (e.g., Qubit) in a 0.5 ul microfuge tube suspended in the purification kit elution buffer (e.g., RNase free water, TE, or Tris buffer). Please contact the Genomics Division lab if you are unable to provide the requested amounts.

Sample No.	Sample Name	Conc. (ng/ul)	Vol. (ul)	RIN (internal use only)	DropSense (internal use only)	Vol (internal use only)
